

## ACT Home Designs

## Discover a better way of building your home

At Rawson Homes, we know building a home is so much more than just building a house. It's about building a better life for you and your family.

That's why we believe in doing things better, with better designs, better quality, better prices and a better experience.

For over 40 years we've been building homes for families just like yours and we've also created an improved way to build your home.

With Rawson Homes you have the ability to choose from a selected range of our most popular designs or you can completely tailor your home design to suit your specific needs. We are here to help you find and build the best home for you, together.

Rawson Homes. Build better, together.

## Single Storey Collection

We know that every family is unique, which is why we build homes to suit all lifestyles.

Our single storey collection offers you many innovative designs and features for contemporary, stylish single storey living that is the perfect fit for young families, growing families, downsizers or retirees.

## **Single Storey**

## Facades

#### HAMPTONS

#### COASTAL

#### CONTEMPORARY

#### MODERN

Our beautiful range of single storey facades comply with all ACT standards and include striking design options to uniquely stand-out and give you that curb appeal you've always dreamed of. From classic to contemporary, there's a facade designed just for you.

#### See below for some of the ACT compliant facade designs:

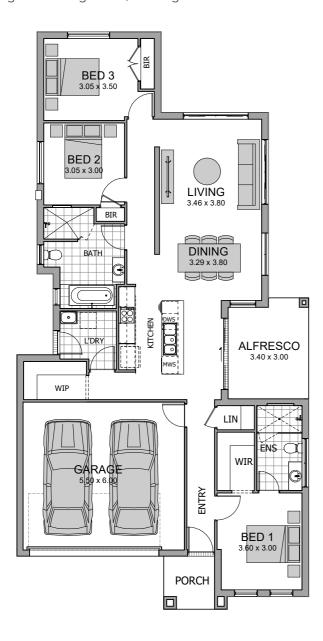

## Fairlight 20

The Fairlight was designed for those who love to cook and entertain, with the kitchen integrated with the living and dining areas, looking out onto the alfresco.

# Designed to be ACT compliant

All the homes in the ACT range have been designed to accommodate a typical block in the region. The designs take into consideration the ACT Planning & Territory Plan, Single Dwelling Housing Development Code and latest National Construction Code 2022 requirements.

Some examples of compliance are:

#### **ACT Single Dwelling Housing Development Code**

Complying with Building and Solar Envelope limitations on substantially level lots.

Achieving Solar Access depending on suitable block orientation.

Meeting restrictive setback requirements required in the Front, Primary and Rear Zones.

Complying with minimum or maximum Site Coverage, Plot Ratios and Private open space areas on standard lot sizes.

#### **National Construction Code 2022**

Achieving 7 Star Energy Efficiency standard through increased insulation, double glazed windows/doors, sealing around wall openings and energy efficient lighting and fixtures

Roof spaces will be ventilated to alleviate condensation risks

NCC Liveable Housing Code compliance:

- Providing an easy step free access from the boundary to the home entry and a step free threshold to the front door.
- Include wider internal corridor widths and extra wide doors with level thresholds to allow easy access around the home and into living areas
- Provide a toilet compartment on the entry level which has increased circulation space for access to the toilet pan and basin.
- Include a shower in the home that can be used by semi-ambulatory persons which has level access.
- Providing certain walls around the entry toilet, accessible shower and one bath (when provided) with strengthening for fixing of possible future grab rails.

**General Disclaimer** – whilst every effort has been made to make standard home designs comply with the above requirements some alteration or reduction may be required on certain blocks which have specific circumstances and restrictions.

## Where we build
